Florida Department of Environmental Protection,
Office of Coastal and Aquatic Managed Areas:
Aquatic Preserve Letter
April 19, 2006

Mr. Frank Allen
Government Analyst
Land Administration
Department of Corrections
2601 Blairstone Road
Tallahassee, FL 32399-2500

Dear Mr. Allen:

Please consider this correspondence as concurrence of no impact to aquatic resources for all correctional facilities that are not located in or adjacent to a state designated aquatic preserve. Please forward any facilities that are proposed if they are located near one of the 41 aquatic preserves, and we will respond with information concerning their potential impacts.

Please give me a call at 850/245-2094, or e-mail me at ellen.stere@dep.state.fl.us, if you have any questions or if I can be of any further assistance.

Sincerely,

Ellen L. Stere

RE: Land Use Plan for Dade Correctional Institution/Homestead Correctional Institution

Dear Ms. Wood:

Thank you for your inquiry regarding the surface water quality classifications on and near the Dade Correctional Institution/Homestead Correctional Institution in Dade County. There are no Outstanding Florida Waters (OFW) located on or immediately adjacent to the sites (section 62-302.700, Florida Administrative Code (FAC)). Any surface waters on the sites are classified as Class III waters (subparagraph 62-302.400(12)(b)13., FAC), which is the statewide default classification.

If you have any questions or need additional information, please feel free to contact me at the letterhead address (mail station 6511), by phone at 850/245-8429, or via E-mail at Eric.Shaw@dep.state.fl.us.

Sincerely,

Eric R. Shaw

APPENDIX II (d)
Florida Department of Community Affairs,
Bureau of State Planning:
Area of Critical Concern Letter
March 7, 2005

Ms. Patti Doerr, Government Analyst
Land Administration
Bureau of Purchasing
Florida Department of Corrections
2601 Blair Stone Road
Tallahassee, Florida 32300-2500

Dear Ms. Doerr:

Thank you for your letters of February 17, 2005 requesting clarification on whether a series of correction facility construction projects would be located within an area of critical state concern (ACSC). The projects identified with your letter are not prepared for any known ACSC locations. Currently ACSC designations exist in Collier, Monroe, Franklin, Polk and Lake counties only. The Department staff is not aware of any proposals to designate additional ACSCs at this time. ACSCs are typically designated for wildlife refuge, wilderness areas, aquatic preserves, major rivers and estuaries, state environmentally endangered lands, Outstanding Florida waters, aquifer recharge areas, and other areas where uncontrolled development would cause substantial deterioration of the state's natural resources. Under State law, the total land area contained within ACSCs cannot exceed five percent of the total land area of the State.

We appreciate your efforts to work with us in protecting ACSCs from development encroachment. If you should have any further questions, please contact me at (850) 922-1805.

Sincerely,

[Signature]

Dan Evans, AICP, Senior Planner
Bureau of State Planning

DE/de

The Florida Department of Corrections has requested an updated letter from the Florida Department of Community Affairs, Bureau of State Planning for the Areas of Critical State Concern. The Bureau of State Planning has indicted this is their standard letter and is sufficient.
AREAS OF CRITICAL STATE CONCERN

Established in Chapter 380.05, Florida Statutes, the ACSC program protects resources and public facilities of major statewide significance. Designated Areas of Critical State Concern are:

- City of Apalachicola
- City of Key West
- Green Swamp
- Florida Keys (Monroe County)
- Big Cypress Swamp (Miami-Dade, Monroe and Collier Counties)
